

Options and Accessories

Connectors

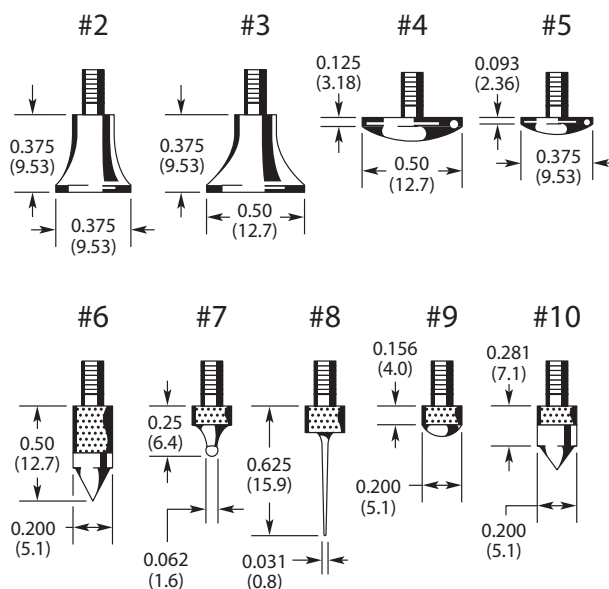

Four different connectors are available to simplify installation of LBB and PCA Series gaging probes. To select the proper connector, simply add the appropriate number to the end of the gage head part number.

Connector Part Number	Description
Suffix 1	Bendix-type PTO6A-10-6P (SR)
4	DE-9 compatible with Schaevitz® ATA2001
5	Switchcraft-type 12CL5-M compatible with Schaevitz® SYS-96 Dimensional Data Acquisition System
7	Switchcraft-type 05BL5-M compatible with Schaevitz® MP series LVDT readout/controller

Special Contact Tips

Nine different Schaevitz® contact tips are available for special applications and as replacements for standard tips supplied with most gage heads. All Schaevitz® contact points are 4-48 AGD threaded. To order, select the proper contact tip number.

MS-Type Connector Cables

Consult factory for price and availability of adaptor cables for LVDTs and signal conditioners.
