Email: jinzon@ms2.hinet.net

JSTP-72

- Factory-set pressure for cut-in at 1.2 kg/cm² and cut-out at 2.4 kg/cm². (Accept your specified pressure between 0.5-3.5 kg/cm²)

Float Switch

JST-75 Single

* Length of JST-75 cable may be extended to meet specific requirement.

- Suitable for sewage, concentrated solution, etc., completed with water-proof cable, and level adjusting bob.
- Power : 110/220V 10-5A, Contacts A and B.

JST-75-1

- For deep-water pumping out control.
- Power : 110/220 volt max. load 1/2 HP. Waterproof cord 1M.

JST-75-M

- For control pumping out sewage, thick fluid or liquid.
- Waterproof cord 5M. Attached.
- Power : AC 110/220V 1/0.5A , DC 30V/0.5A

JIN ZON ENTERPRISE CO., LTD

Address : 4F-3. No.171. Sec.2. Chang An E. Rd. Taipei. Taiwan. R.O.C.

JST-77 Mercury Switch

- For control pumping out sewage, thick fluid or liquid with floating matters. Float controls may be fitted up/down level limit for warning or indication signal.
- Power : DC 50 volt 0.1 amp.
- Waterproof cord 5 M. attached.

Oil Level Control Switch

JSTR-101

- Application : For oil and chemical fluid. Burst proof calcium carbide formed casing, with stainless steel bob.
- Power Source :110/220V 3A, Contacts A and B.
