

Piezoceramic transducers is a piezoceramic disc for humidifier, beauty, cleaner and fish finder...etc. Welcome for customer design.

**JLB-4540**

Diameter of Radiating Surface(mm)	45
Diameter of Ceramic Element (mm)	35
Resonant Frequency, $f_0$ (kHz)	$40 \pm 0.5$
Impedance Resonant, $Z_m(\Omega)$	< 35
Static Capacitance, C(pF)	$4000 \pm 15\%$
Maximum Allowable Power, P(W)	60
Application	Cleaning

\* Design Service available for other frequency (14-60KHz) and power ratings.

\* Transducers for ultrasonic welding, drilling and de-scaling also available.
